
This is a great video that will show you how to find out what Felicia Garcia is up to now. It's been nearly three years since Felicia disappeared without a trace, but her mother says she's still searching for her. This video will show you how to find out where she really is now. Felicia Garcia disappeared from her home in 2004. Her mother Lori Chase said that her daughter had been tied up and drugged and had recently started acting strangely and spending large sums of money on phone sex. Family members even say they think Felicia was part of a ring – maybe connected to local police – that trafficked sex workers across the country. But police believe she left on her own, and perhaps she got caught up in something dangerous. The last time anyone saw Felicia, she was outside a nightclub in Philadelphia, talking on the phone with one of the dancers who worked there. And then she vanished without a trace. Felicia's mother, Lori Chase, said she doesn't know what to make of her daughter's disappearance. She said the reality of her daughter's situation is that she can't go home because she has been disappeared. She added that it is very difficult to find people who have been missing for three years because it's been a long period of time. The video will show you how to find out what Felicia Garcia is up to now.
